PROFILE

I am MTech software engineer graduate in the Department of computer science from VIT Vellore. I am currently Working as Software Engineer in JIO. I am also a Tutor with passion and love to help others with the knowledge I have. I love to explore new technologies and keep myself updated.

I love working with Data and automation. I like to spend a lot of my time in engineering and automating different tasks I possibly can.

SKILLS

- PYTHON
- DATA ANALYTICS
- CI-CD
- MONITORING
- ELK, PROMETHEUS

EXPERIENCE

SOFTWARE ENGINEER (JIO)

AUG 2019 - PRESENT

I am working in the Applications and Automation team for AJIO, Reliance Digital, AJIO-B2B.

Project:

1. Data Visualization Application

There are some use cases where we want to analyze data and produce graphs to get some intel. And we also should be in a position to apply various filters to such data and deep dive into needed portions etc. Plot different kinds of graphs for your use case line (Line, Bar, Pie, Scatter plot, etc.). There are different kinds of methods:

a. Year Data || b. Month Data || c. String data etc.

SOFTWARE ENGINEER – INTERN (SAP)

JULY 2018 – JULY 2019

Projects:

1. JIRA – ID validation for every commit made my developer. Used Python and API of GIT and JIRA.
 2. CHATBOT using conversational AI
 3. Integrated GIT data with JIRA data to correlate and get useful insights out of it.
- Awards (Honor Award: Best performer of the Project ML_FICA Project)
